

NEW GREYHOUND TERMINAL FOR TENNANT CREEK

Greyhound Australia has opened a new coach and freight terminal and customer waiting area in Tennant Creek.

Chief Executive Officer Robert Thomas said the two new local staff employed to run the facility have been trained to offer customers expert travel advice.

“This new Greyhound terminal will be a one stop shop for passengers wanting to travel north to Darwin, south to Alice Springs or east to Mount Isa or the east coast,” Mr Thomas said.

“It’s located in the centre of town on Patterson Street and will be open from 8:30am until 5pm Monday to Friday and from 8am until 12pm on Saturday.

“The Northern Territory has long been a popular destination for both domestic and international tourists and many visitors pass through Tennant Creek on their way to see Kakadu or Uluru.

“I’m pleased Greyhound can invest in this local community and provide travellers with a better service.”

Greyhound Adventure packages will also be on sale at the Tennant Creek terminal.

“The Greyhound Adventure program has proven popular with passengers since its launch a year ago,” he said.

“It offers adventure seekers the opportunity to purchase or exchange kilometres for memorable experiences such as The Devil’s Marbles or a trip to the Great Barrier Reef.

“Tennant Creek tourists will now be able to plan and purchase action-filled adventures for their entire Australian holiday.”

“The terminal will also make it easier for local businesses and residents to take advantage of Greyhound’s freight service.

“Greyhound coaches operate 365 days a year on a reliable schedule so customers can be confident their parcel will arrive at its destination on time.

“Our world class freight management system also allows customers to track their parcel’s progress around Australia.

“Unlike many of our competitors, Greyhound doesn’t charge any additional surcharges so the price you see is the price you’ll pay.”

Greyhound Freight is a division of Greyhound Australia which has been delivering freight across the country as long as it has been transporting passengers.

Greyhound is Australia’s only national coach company and has been operating for more than 100 years.
